

[2014-15 HHS Yearbook](#)
[Senior Photo Requirements](#)

All Senior Photos must be submitted to K. Myers at HHS by the end of the school day on **January 9, 2015** to be included in the yearbook. Photos that do not conform to yearbook specifications will be replaced with Lifetouch photos taken in September. The yearbook staff is available to assist seniors in choosing an appropriate photograph to be included in the senior portrait section. All inquiries should be sent to myersk@kcsd.k12.or.us.

This year, you can directly upload your digital photos to our Yearbook site by using the following link and code: Link: community.lifetouch.com Code: NEQHHR
You will be prompted to give details about the photo so that it can be properly placed!

There are several options available to seniors for inclusion in the senior portrait section.

Option 1: Free Photo - This fall, *Lifetouch* photography will take photos of all students. These photos are excellent and provide an easy way to provide a senior photo that is of high quality. Seniors who do not submit a local studio portrait will have this photo used in the senior section. Our suggestion is for the senior to wear a nice shirt/top for this photo.

Option 2: Professional Photo - Seniors may also choose a professional photographer to take portraits. The photographer should submit a head/shoulders shot for this section of the yearbook. The deadline for this photo is January 9th, 2015. The yearbook staff would appreciate a digital copy to ensure a quality print. It is imperative that seniors not wait to have this photo taken. Professional photographers often have very busy schedules that will not allow for a quick turnaround. If the senior chooses this option, it is important to schedule the photo shoot with the photographer early in the school year.

In the past, students have brought in “selfies” or photos from Facebook or other social media. These photographs are not of satisfactory quality and will not be published. Below are the specifications for the photographs the yearbook staff requires of the seniors for the portrait section.

Specifications: All photos must conform to the following specifications for inclusion in the yearbook. These specifications are in place to ensure a quality product. The yearbook staff reserves the right to request a different photograph should the submitted photo not meet the following specifications.

1. The measurements for the photo are taken from a 2”x3” wallet.
2. The photo should have 1 ½” from the subject’s chin to the top of the hair. All photos of seniors are resized so that all head sizes are the same.
3. The photo should have ¼” between the top of the head and the edge of the photo. This allows for proper placement of the photo.
4. Clear focus; no soft focus or misty effects. These treatments make the photograph look blurry and of poor quality. No hats, feet, arms, hands, or props that might intrude upon the subject’s face. A professional headshot is the goal.
5. Background should contrast with hair color. This avoids the “floating head” issue. For example, dark background for blondes, and light background for brunettes. A professional photographer will ensure that this is done properly.
6. An electronic submission with the student’s name and Senior Photo in subject line are preferred. Send all photos for yearbook to myersk@kcsd.k12.or.us

2014-15 HHS Yearbook
Senior Photo Requirements

Should there be any question about the photo, the yearbook staff will happily discuss this with either the senior or the parent. Our goal is to ensure a great looking senior section.
