

Klamath County School District
Professional Development Committee Application

Effective teaching requires a comprehensive repertoire of skills and abilities. Klamath County School District is dedicated to providing training, support, and follow-up for teachers to set them up for success in the classroom. This includes onboarding for new teachers, ongoing professional development, and leadership training for master level teachers.

A District Professional Development Committee is being formed for the 2019-20 school year to involve teachers and principals in the decision-making process regarding staff training. The committee will take a leadership role in organizing training days, setting up professional classes, and supporting teachers develop their craft.

Another purpose for this committee is to invite stakeholders into leadership positions where they may have a professional passion. It is intended to build district leadership capacity, understanding, and personal investment in the District.

If you are interested in serving on this district committee see the attached committee charge, fill out the application information below and get it to Stephanie Bland by noon on Monday, June 17, 2019.

The first meeting is scheduled for August 29, 2019 at 4:00 p.m. in the Superintendent's Office. The committee will meet 4-6 times each year after school or on days without students.
