

Klamath County School District Technology Committee Application

The Klamath County School District is committed to providing a quality education to all students. One essential factor in preparing students for college and career readiness is equitable access to technology. A District Technology Committee is being formed for the 2019-20 school year to leverage our investments in technology to increase student performance and organization efficiency. The committee will take a leadership role in providing software and hardware purchases, promoting appropriate technology implementation in the classroom and recommending training for staff.

Another purpose for this committee is to invite stakeholders into leadership positions where they may have a professional passion. It is intended to build district leadership capacity, understanding, and personal investment in the District.

If you are interested in serving on this district committee see the attached committee charge, fill out the application information below and get it to Stephanie Bland by noon on Monday, June 17, 2019.

The first meeting is scheduled for August 28, 2019 at 4:00 p.m. in the Superintendent's Office. The committee will meet 4-6 times each year after school or on days without students.
